

| <b>Prod Desc</b>   | <b>Part Number</b> | <b>Heating Element Part Number</b> |
|--|--------------------|------------------------------------|
| Heater type PN10-XL92, 3X400-440V/17.4-21KW for external control, 5m cable, pressure resistant | 5201197            |                                    |
| Heater type XL92, 3x400-440-480V/5.9-7.1-8.5KW, for external control                           | 5112328            | 5102677                            |
| Heater type XL92, 3x230V/10.2KW  | 5102747            | 5102730                            |
| Heater type XL92, 3x230V/10.2KW, for external control  | 5102748            | 5102730                            |
| Heater type XL92, 3x230V/10.2KW, without electronic  | 5102753            | 5102730                            |
| Heater type XL92, 3x230V/5.7KW   | 5700098            |                                    |
| Heater type XL92, 3x230V/5.7KW, for external control   | 5102750            | 5102738                            |
| Heater type XL92, 3x230V/5.7KW, without electronic   | 5102755            | 5102738                            |
| Heater type XL92, 3x400-440-480V 11,8-14,3-17KW, for external control, with thermocouple       | 5102759            |                                    |
| Heater type XL92, 3x400-440-480V/11.8-14.3-17.1KW without electronic                           | 5102768            | 5100193                            |
| Heater type XL92, 3x400-440-480V/11.8-14.3-17.1KW without protection tube (S23)                | 6600351            |                                    |
| Heater type XL92, 3x400-440-480V/11.8-14.3-17.1KW, temperature resistant, without electronic   | 5111746            |                                    |
| Heater type XL92, 3x400-440-480V/11.8-14.3-17KW  | 5102760            | 5100193                            |
| Heater type XL92, 3x400-440-480V/15.0-18.2-21.6KW, high temperature, without electronic        | 5110568            | 5110644                            |
| Heater type XL92, 3X400-440-480V/17.4-21.0-25.0KW without electronic                           | 5102770            | 5102684                            |
| Heater type XL92, 3x400-440-480V/5.9-7.1-8.5KW   | 5102761            | 5102677                            |
| Heater type XL92, 3x400-440-480V/5.9-7.1-8.5KW, without electronic                             | 5102766            | 5102677                            |
| Heater type XL92, 3x400-440-480V/7.6-9.1-10.9KW  | 5102762            | 5102691                            |
| Heater type XL92, 3x400-440-480V/7.6-9.1-10.9KW, for external control                          | 5102179            | 5102691                            |
| Heater type XL92, 3x400-440-480V/7.6-9.1-10.9KW, without electronic                            | 5102180            | 5102691                            |
| Heater type XL92, 3x400-440-480VAC 11,8-14,3-17KW, for external control                        | 5110521            | 5100193                            |
| Heater type XL92, 3x400-440-480VAC 11,8-14,3-17KW, for external control, with thermocouple     | 5110521S           | 5100193                            |
| Heater type XL92, 3x400-440V/11.8-14.3KW, pressure resistant PN10                              | 5201193            | 5100193                            |
| Heater type XL92, 3x400-440V/17.4-21.0KW   | 5102765            | 5102684                            |
| Heater type XL92, 3x400-440V/17.4-21.0KW, for external control                                 | 5113726            | 5102684                            |
| Heater type XL92, 3x400-440V/17.4-21.0KW, for external control, with thermocouple              | 5113727            |                                    |
| Heater type XL92, 3X400-440V/5.9-7.1KW, pressure resistant PN10                                | 5201194            | 5102677                            |
