

# WELDON S

Simple,  
handy,  
low cost

- movable and flexible
- stepless adjustment of temperature
- fatigue-proof welding thanks to ergonomic handle and rotating air hose
- cooled heater tube
- nozzle position 360° adjustable
- large accessories range

The low-cost hand tool with ergonomic handle for the easy welding of all thermoplastic materials. Air supply with external blower (BAK Air Station) or compressed air.

#### Technical data

Voltage	V	230/120
Frequency	Hz	50/60
Power consumption	W	600
Temperature	°F	68-842
Air flow	l/min	min. 40
Pressure	bar	max. 1
Size	mm	295 x 62, handle Ø 38
Weight	lbs	1.6 with 9.84 ft cord, air hose and Y-connection
Markings		CE
