

Hot air blower

# HOTON

Small,  
powerful,  
futuristic

- variable temperature setting
- variable air flow setting
- steeples adjustable
- for continuous operation
- available in an analog or digital version
- version for external control on request

The very small and powerful hot air blower to build into machines.

#### Technical data

Voltage	V	230/400
Frequency	Hz	50/60
Power consumption	W	2300-3400-4500/5600
Max. Temperature	°F	1202
Min. air flow	l/min	300
Max. air flow with 1202 °F	l/min	540
Static pressure	Pa	3000
Noise	dB	60
Size (l x w x h) with short heater tube	mm	290 x 125 x 135
Size (l x w x h) with long heater tube	mm	330 x 125 x 135
Weight with short heater tube	lbs	3.96
Weight with long heater tube	lbs	4.19
